## Experience & Leadership Roles →

### **Cunieform Digital Library Initiative {GSOC 2022}**

**Open Source Php developer and Contributor In Google Summer Of Code {2022}**

worked under trained professionals and developers in project for 1 month , managed github and contributed to many of the real world legacy codebases provided by cdli . Our project were extended to next year but gained important lessons and experience in real world development .

### **Devtown {formerly ShapeAi}**

**Full Stack Internship {2021-2022}**

learnt MERN stack and participated in many real world projects including building Restful APIs , Clones of popular websites and also took leadership roles . Got Letter of recommendation for my best effort , came first out of 250 other developers .

## **EDDIEHUB**

### **Open Source Contributor and @helper**

worked on many full stack applications like Linkfree and other incredible full stack projects in the organization made by Eddie Jaoude and our community , worked on communicative skills and Developer Relations as well .

### **Google developer Student Club {Ongoing application}**

#### **Developer Advocate**

Applied and have a fairly succesful interview and will get my application letter in may end due to delay .

### **Extracurricular activties**

Extra-curricular activites include arranging various bootcamps in colleges to get students experience and real world application management. Attended various web conferences like Pyconf in 2021 on Scholarship , MLH Hackweek , Online hackathons arranged by colleges , google IO etc . been in various online Forums and open source developer communities and many more events and organisations.
